ADDRESS REGISTRAR OF THE FACULTY

FAYETTE, MISSOURI

OFFICERS AND FACULTY

I. Central College.

REV. JAMES C. MORRIS, A.M., D.D., President.
Professor of Moral Philosophy and Evidences of Christianity.
(Chair endowed in honor of Bishop Marvin.)

T. BERRY SMITH, A.M.,
Professor of Chemistry and Physics.
(Chair endowed by Richard M. Scruggs).

Q. H. P. CORPREW, A.M., LL.D.,
Emeritus Professor of Greek and Latin.
(Chair endowed by Robert A. Barnes.)

.....

Associate Professor of Latin and Greek.

WILLIAM A. WEBB, A.B.,
Professor of English.
(Chair endowed in honor of Mary Evans Barnes.)

JOHN L. HOUSE, A.M.,
Professor of Natural History, Mineralogy, Geology.
(Chair endowed by George T. Hoagland.)

REV. RICHARD T. BOND, A.M.,
Professor of Mathematics and Astronomy.

WILLIAM D. BASKETT, A.M., Absent on leave.
FRANK A. BERNSTORF, Acting Professor.
Professor of Modern Languages.

MURRAY S. WILDMAN, Ph.D.,
Professor of History and Economics.

WILLIAM A. WEBB.
Secretary of Faculty and Registrar.

MURRAY S. WILDMAN,
Librarian.

FRANK C. BOWLES.
Director of Gymnasium.

II. Central Academy, Fayette, Mo.

WILLIAM ROBERTSON, Principal.
REV. J. B. GAME, Ph.D., Absent on leave.

F. C. BOWLES, A.M., Assistant.
WORTH J. OSBURN, A.M., Assistant.

III. Central Academy (Woodson Institute) Richmond, Mo.

GRANT B. GRUMBINE, M.S., Principal.

IV. Central Academy (Centenary) Palmyra, Mo.

REV. JAMES A. LANIUS, Principal.

ANNOUNCEMENTS

The Board of Curators of Central College has just closed a session notable for its harmony, its diligent inspection of all the affairs of the College and for new work undertaken.

The following points may be mentioned:

1. The College is literally *free from debt on all accounts.*

2. We begin the financial year with nearly $40,000 more of cash endowment than we had last year.

3. Rev. Willis Carlisle of the Missouri Conference has been elected and appointed Secretary of the College, and will devote his entire time to its interests.

4. A new gymnasium to cost $10,000 has been ordered and steps have been taken to secure its erection at once.

5. A liberal offer of scholarships (free tuition for one year) has been made as follows:

(a) One to the student in each of the three academies (Fayette, Richmond and Palmyra) wishing to enter the College who has the highest grade for scholarship and deportment.

(b) One to any young man in each presiding elder's district in the three Annual Conferences who is prepared to enter the Freshman Class in the College and presents the best grades in scholarship and deportment.

These items present us a condition from which we gather new hope and inspiration. We certainly have reason to thank God and take courage.

APPLICATION FOR SCHOLARSHIPS

These scholarships are available for any persons belonging to the classes described, and the decisions will be based upon the relative grades of those who apply.

For particular information write to Prof. William A. Webb, Registrar of Central College, Fayette, Mo. All letters will receive prompt attention.

Applications should be made not later than August 1, 1905.

MINISTERIAL STUDENTS

The Board directed that hereafter all persons attending the College as ministerial students must have the recommendation of the quarterly conference of the charge to which they belong, and must give written obligations to pay their tuition in case they do not enter the active min-

istry, and that such obligation must be signed by another responsible person.

All such students in the College or Academy must be approved annually by the Faculty as a condition of their matriculation.

Y. M. C. A.

The Y. M. C. A. expects to have its new club room fitted up for the reception of students coming in September. A list of all approved boarding houses and rooms will be on file there. The committee will be glad to be of any service it can to new students. The new Hand-Book will be out in August. Any one wishing a copy may secure same by writing C. W. Blakey, Fayette, Missouri.

GRADUATES—1905

Master of Arts

JOHN C. GODBEY, A.B. - - - - - - - - Fayette, Mo.

NANNIE (GODBEY) SHIRK, A.B. - - - - - - Fayette, Mo.

MABEL F. SYMONS, A.B. - - - - - - Lake City, Ark.

Master of Science

ETHEL K. RUSH, B.S. - - - - - - - - - Fayette, Mo.

Bachelor of Arts

VERNE DYSON - - - - - - - - - - Kansas City, Mo.

MARGARET O. GODBEY - - - - - - - - - Fayette, Mo.

MINETTA HOLLAND - - - - - - - - - Fayette, Mo.

Anniversary of Aristotelian Society, May 21, 1906.
Annual Examinations, May 29, 1906.
Commencement Exercises, June 10-13, 1906.

PART I.

HISTORICAL STATEMENT.

On the first day of March, 1855, the Legislature of Missouri approved the following act:

WHEREAS, The members of the Methodist Episcopal Church, South, in this State, at a convention of delegates held in St. Louis on the thirteenth of April, 1852, resolved to unite the means and efforts of their Church in the erection of one college of the highest order, at Fayette, in this State, and adopted the plan for that purpose; and, whereas, the two Conferences of the Church, pursuant to that plan, appointed a Board of Curators, composed of the following persons, appointed by the St. Louis Conference, that is to say: J. S. Waddill, Silas Silvey, Charles W. Stewart, Edward J. Gray, Henry R. Walker, W. Adams, Esq., Dr. William Price, Rev. D. R. McAnnally, J. K. Lack, Thomas Johnson, N. Scarritt, J. Boyle, D.D., J. F. Truslow, J. T. Peery, and James Mitchell; and of the following persons appointed by the Missouri Conference, that is to say: W. D. Swinney, Jo. Davis, C. C. P. Hill, Abiel Leonard, G. M. B. Maughs, M.D., Alexander Mitchell, John B. Clark, Rev. A. Munroe, R. P. Holt, William B. Watts, B. H. Spencer, P. M. Pinkard, J. F. Riggs, R. G. Loving, and W. G. Caples; and, whereas, a quorum of these gentlemen met at Fayette on the ninth day of December, 1854, and appointed the following officers: J. Boyle, D.D., President; C. C. P. Hill, Vice-President; William T. Lucky, Secretary, and Adam Hendrix, Treasurer, and adopted such other measures in furtherance of the design as they deemed proper, and have procured a large sum of money to be subscribed, payable to Adam Hendrix, their treasurer, and now desire an act incorporating the proposed institution; therefore,

Be it enacted by the General Assembly of the State of Missouri, as follows:

Section 1. The above mentioned persons, and their successors in office, are hereby constituted a body politic, with all the rights, powers and privileges usually enjoyed by colleges and universities of the highest grade, or which may be necessary and proper to enable them to promote the cause of learning in the State; and all acts of the Board of Curators aforesaid, in furtherance of the object of their appointment by the two Conferences, are hereby ratified and confirmed.

Under this Charter, Central College was organized in Fayette, Howard County, Missouri, in the year 1857. In 1901, the three Conferences of the Methodist Episcopal Church, South, in Missouri, concurrently approving such action, the necessary legal steps were taken to secure amendments to the Charter. These provided as follows:

"The number of the Curators of this corporations shall be twenty-four, and one-third of the whole number of such Curators shall be appointed by each of the three Conferences of the Methodist Episcopal Church, South, in Missouri—that is to say, the St. Louis Conference, the Missouri Conference, and the Southwest Missouri Conference of said Church.

"The term of office of each Curator hereafter appointed shall be four years and until his successor is appointed and qualified.

"One-third of the Curators hereafter appointed by each of said Conferences shall be Alumni of Central College, and each Curator who is appointed as a representative of the Alumni of the College shall be selected by the Conference appointing him from not less than three persons who shall have been nominated for that purpose by the Alumni of Central College to such Conference."

THE OBJECT OF ITS INSTITUTION.

The purpose which the founders of Central College had in view was to afford to the young people under the direction of the Church an education which should be distinctively Christian. They did not propose to teach any system of theology, or to undertake the work of a theological seminary. The management of the College interprets Christianity from an evangelical standpoint, but its effort is to make its students cultured Christian men and women rather than Methodists.

We hold that if Christianity be what the Church believes it to be, its claims, its contents, and the grounds for believing it should form a part of the College curriculum, and our work is directed to the end that our students shall be trained religiously as well as intellectually during their College course. The course has been chosen with this in mind, and the instructors are selected with this fully in view.

One of the strong periodicals of the West makes this reflection: "Our institutions of higher learning are neglecting religion in their curricula, and, either with intention or not, are educating men and women away from religion." And one of the foremost educators of the East says: "Both those who are theorists and those who actively participate in instruction are agreed in realizing that the current methods are unsatisfactory and unscientific, and not infrequently irreligious."

We recognize the religious element as necessary to true education. Learning which is merely secular cannot secure the highest and the best life for the individual, for society, or for the State. The Church is obliged by every consideration to do something more than merely to educate her children: she must afford education which is distinctively Christian. And the parents or guardians are under corresponding obligation to secure this element of instruction and influence for those under their care.

FORMER OFFICERS AND TEACHERS.

I. PRESIDENTS.

Rev. Nathan Scarritt, D.D., June, 1857-June, 1858.
Rev. A. A. Morrison, D.D., June, 1858-March, 1860.

REV. JAMES A. LANIUS, Principal.

J. W. KILPATRICK, A.M.

Professor J. W. Kilpatrick, of the Department of Biology, Geology, and Mineralogy, died October 21, 1904.

He was a native of Mississippi. He came to Central College in the year 1880 and remained until the very day of his death actively identified with its work. He was a wise, strong, and patient helper in all college enterprises. In the long and worthy list of its friends, Central College has not one who rendered a more helpful service, or enjoyed a larger and more loving appreciation.

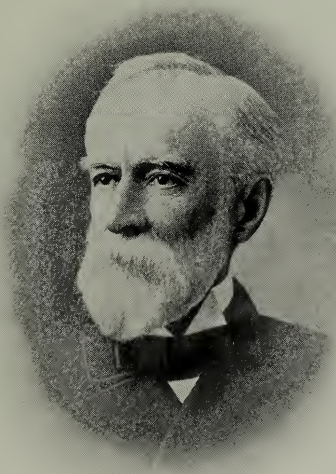
He was a diligent and enthusiastic student, an eminently successful teacher, a wise and helpful friend and adviser of the student, a self-sacrificing friend of the College, a cultured Christian gentleman.

RICHARD M. SCRUGGS.

Richard M. Scruggs, a member of the Board o Curators of Central College and a member of the Executive Committee of the Board, died November 22, 1904.

Mr. Scruggs was for years officially connected with Central College, and to his official relation he added a close personal interest. His heart was profoundly touched by the history of those who have gone out of the College into the various spheres of business life. He gave to the institution the sum of fifty thousand dollars ($50,000) in two gifts, and besides this he was the free-handed, happy-hearted contributor in every time of its need. He gave freely to assist young men in the College preparing themselves for life-work. At the time of his death he was looking forward to the close of the year, expecting to be present at the annual meeting of the Board of Curators and to assist in the preparations for the College semi-centennial.

He was a prince among men, a finished gentleman, a peerless benefactor, a rare and saintly Christian, "and he was called the friend of God."



COLLEGE INSTRUCTION.

The course of study in the College is arranged on the principle that a thorough general education should precede the work done in universities. We do not aim to do university work. Our A.B. and B.S. courses serve as preparation for special courses, which may be afterwards taken up at the Vanderbilt or some other university. Properly pursued, our course of study will give full and symmetrical development to the faculties of the mind. This work should be undertaken in early life, and so conducted from the first that the student's progress may be safe and pleasant, and that he may have nothing to unlearn.

REQUIREMENTS FOR ADMISSION.

The next collegiate year will begin on Wednesday, September 13, 1905.

The day before the opening is given to examinations for admission, and it is very important that all applicants be present then. Failure to be here at the given time is both a hindrance to the student and an inconvenience to the Faculty.

The applicant must be of good moral character. He must report promptly after his arrival, at the President's office in the College.

Whenever an applicant from another school claims credit for work done there, he must present a certificate of honorable dismission from that school, with his grades.

No one will be admitted to any class previous to matriculation and payment of dues for the term. It is understood that when the student matriculates, he thereby pledges himself to observe all the rules of the College during his connection with it.

Young women are received into the College upon conditions

in all respects the same as those for young men, and on being admitted they are subject to the same rules as to attendance upon classes and performance of duties, and they are entitled to the same privileges of instruction. On the completion of any full course leading to an academic degree, they will be recommended for the same by the Faculty.

ACCREDITED SECONDARY SCHOOLS.

The certified grades (not diplomas) of the Central Academies and of the accredited high schools are accepted for the full time in which the subject has been studied, in place of examination on the following:

REQUIREMENTS FOR ADMISSION TO THE FRESHMAN CLASS.

I. A. B. COURSE.

LATIN.—The student must have read four books of Cæsar and four of Cicero's Cataline Orations and three books of Vergil. His ability in writing Latin will be tested by the translation into Latin of continuous English prose, based upon Cæsar and Cicero. In place of part of Cæsar, a proper amount of Nepos may be substituted.

GREEK.—He must be able to read the "Anabasis" and be well acquainted with the forms of the language, and be able to translate simple sentences from English into Greek.

MATHEMATICS.—Plane Geometry and Algebra through quadratic equations.

In Geometry special emphasis is given to original work in solving such exercises as those found in Wentworth's "Geometry," which is the text used.

The requirement in Algebra implies a ready knowledge of factoring, involution, evolution, radicals, fractional and negative exponents, radical equations and simultaneous quadratic equations as treated in Bowser's "Academic Algebra."

ENGLISH.—*Reading and Practice.* A certain number of books will be set for reading. The candidate will be required to present evidence of a general knowledge of the subject-matter, and to answer simple questions on the lives of the authors. The form of examination will usually be the writing of a paragraph or two on each of several topics, to be chosen by the candidate from a considerable number—perhaps ten or fifteen—set before him in the examination paper. The treatment of these topics is designed to test the candidate's power of clear and accurate expression, and will call for only a general knowledge of the books. In place of a part or the whole of this test, the candidate may be allowed to present an exercise book, properly certified by his instructor, containing compositions or other written work done in connection with the reading of the books. The books set for this part of the examination will be:

1905, 1906—Shakespeare's "Merchant of Venice" and "Julius Cæsar"; the "Sir Roger de Coverley Papers" in *The Spectator;* Goldsmith's "Vicar of Wakefield"; Coleridge's "Rime of the Ancient Mariner"; Scott's "Ivanhoe"; Carlyle's Essay on Burns; Tennyson's "Princess"; Lowell's "Vision of Sir Launfal"; George Eliot's "Silas Marner."

Study and Practice.—This part of the examination presupposes the more careful study of each of the works named below. The examination will be upon subject-matter, form, and structure, and will also test the candidate's ability to express his knowledge with clearness and accuracy. The following will be the books required for examination:

1905, 1906—Shakespeare's "Macbeth"; Milton's "L'Allegro," "Il Penseroso," "Comus," and "Lycidas"; Burke's Speech on Conciliation with America; Macaulay's Essays on Milton and Addison.

HISTORY.—All candidates are required to exhibit a general

acquaintance with the History of the United States and of England, and with Greek and Roman History.

SCIENCE.—An elementary course in Biology or Physics, taught by laboratory methods.

II. B. S. COURSE.

Candidates for the degree of Bachelor of Science will be allowed to substitute work in German or French, or both, in place of the Greek and Latin. They will also be required to offer fuller courses in History and Science.

For course of study in Central Academy, see pp. 73-75.

Senior Year.

1. Introduction to the Study of Philosophy. Hibben's "Problems of Philosophy."

2. Ethics. Janet's "Theory of Morals."

HISTORY AND ECONOMICS.

PROFESSOR WILDMAN.

Instruction in both branches of this department will be directed toward giving students a general view of the progress of civilization and a more exact understanding of certain critical periods and important movements. On the side of Economics the purposes will be three, to give the student familiarity with the elementary principles of the science, to investigate some of the more significant practical problems of modern industry and commerce, especially in the United States, and finally to trace, as well as may be done, the effect of economic forces in determining the progress of society along other than industrial lines of development.

Text-books will be used in all courses which admit of their use to advantage, and these will be supplemented by lectures and assigned reading.

I. MEDIAEVAL AND MODERN HISTORY.—For Freshmen.

This course will be given twice a week throughout the year. Robinson's *History of Western Europe.*

II. National Governments.—A brief study of the constitutions of some of the greater European states for comparison with the constitution of the United States, for Sophomores. Twice a week through the first semester. Wilson's *The State.*

III. Economics.—This course is intended to be an introduction to the theory of Political Economy, together with a brief review of the industrial development of the United States, for Sophomores. Twice a week through the second semester. Bullock's *Introduction to the Study of Economics,* and lectures.

IV. Constitutional History.—

(*a*) *England and Her Colonies.* Twice a week through the first semester.

(*b*) *The United States.* Twice a week through the second semester.

It is the purpose in both divisions of this course to examine the origins and trace the development of free political institutions. The course will be adapted to the needs of those who expect to teach or to pursue advanced courses in history or political science.

V. Economic Problems.—

(*a*) *Money and Banking.* Twice a week through the first semester.

(*b*) *Labor and Capital.* Twice a week through the second semester.

VI. National Progress.—

(*a*) *History of American Industry.* Twice a week through the first semester.

(*b*) *Financial History of the United States.* Twice a week through the second semester.

Courses I., II., and III., or others of equivalent grade, are considered prerequisite to any of those which follow. Students who wish to enter any of these advanced courses, but who have not done the work of the required courses in Central College, should consult the instructor before enrollment. No elective course will be given unless elected by three students. All except the first three courses are elective.

LATIN.

PROFESSOR CORPREW, ASSOCIATE PROFESSOR MOONEY.

In this school special attention is given to the principles of Syntax and the idiomatic difference between the Latin and English; hence written translations, especially from the latter into the former, will be frequently required. The principles established by Comparative Grammar are employed to explain the forms and constructions in Latin. The laws of Prosody are taught and illustrated by comparing ancient and modern verse. Thoroughness is deemed of more importance than the amount read. The authors are selected with a view to give a general knowledge of the various branches of Latin literature, and enough of each author is read to familiarize the student with his style and merits. The Roman method of pronunciation is used.

This school is divided into three classes, each reciting three lessons a week. The text-books are:

Freshman Class.

Selections from Latin Poets; Cicero de Senectute; Horace's Odes and Epodes. Nutting's Advanced Latin Composition used throughout the year.

Sophomore Class.

Livy, Book XXII.; Plautus' "Captives" and "Trinummus";

Horace's Satires and Epistles. Nutting's Advanced Latin Composition used throughout the year. Mackail's Roman Literature used as parallel work.

Junior Class.

"Brutus" of Cicero; Satires of Juvenal; Annals of Tacitus; Sargent's Prose Composition; Crutwell's Roman Literature.

BOOKS OF REFERENCE.—*Grammars:* Gildersleeve's, Allen and Greenough's New Latin Grammar. *Lexicons:* Harper's, Smith's Classical Dictionary, Smith's Dictionary of Greek and Roman Antiquities.

GREEK.

PROFESSOR CORPREW, ASSOCIATE PROFESSOR MOONEY.

The method of teaching this language is the same as that of Latin, and frequent comparisons are instituted between the forms and construction of the two languages. While the Attic Greek is the basis of instruction in this language, such works are selected as to give the student a knowledge of the other dialects. The Greek is read by accent, and the principles of accentuation are studied and applied in writing prose composition.

This school is divided into three classes, which recite as in the Latin. Text-books:

Freshman Class.

Xenophon's "Cyropædia"; Herodotus, Book VII.; Homer's "Odyssey," Books V.-VIII.; Prose Composition, based on "Anabasis."

Sophomore Class.

Demosthenes' Philippics; Thucydides' History, Book VII.; Euripides' "Alcestis"; Sidgwick's Greek Prose; Murray's Greek Literature.

Junior Class.

Greek Lyric Poets; Sophocles' "Antigone"; Plato's "Euthyphro"; Prose Composition; Jevon's Greek Literature; New Testament Greek.

Books of Reference.—*Grammars:* Curtius', Hadley, Gildersleeve's Syntax of Classical Greek. *Lexicons:* Liddell and Scott, Yonge's, Autenreith's Homeric Dictionary.

MATHEMATICS.

PROFESSOR BOND.

Freshman Class.

During the year the class will study Advanced Algebra, Plane Trigonometry, and Solid Geometry.

The work in Algebra will include ratio, proportion, variation, the three progressions, undetermined coëfficients, the general binomial theorem and its applications, the theory and computation of logarithms. Bowser's "College Algebra" is the text.

The work in Plane Trigonometry will involve the derivation of formulæ and their application to the solution of problems. The scope of the work is shown in Chauvenet's "Trigonometry."

In Solid Geometry the class will study the properties of planes, diedral and polyhedral angles, prisms, pyramids, regular solids, cylinders, cones, spheres, spherical angles and triangles. Text-book, Wentworth's "Geometry."

Sophomore Class.

Spherical Trigonometry and Analytics. The nature and scope of the work are shown in Chauvenet's "Trigonometry" and Nichol's "Analytics," which are the text-books used.

Junior Class.

Differential and Integral Calculus, as given in Nichols' "Calculus."

Senior Class.

Astronomy and Mechanics. The texts used are Young's "Manual of Astronomy" and Jessop's "Applied Mathematics."

COURSES FOR UNDERGRADUATES AND GRADUATES.

Plane Surveying and Leveling, Determinants, Theory of Equations, Solid Analytic Geometry, Differential Equations, Philosophy of Mathematics, Descriptive Geometry.

Additional graduate work will embrace some subject of higher mathematical theory or application, according to the desire of the student.

ENGLISH.

PROFESSOR WEBB.

The courses of study offered in the English Department embrace the Theory and Practice of Composition and the study of Literature.

Work in Composition is commenced in the Freshman Class, and is required in connection with all courses in English. In the study of Literature special attention is directed to the sympathetic and vital interpretation of the masterpieces of English literature. Careful study is made of the author's thoughts, of his method of expression, and of his relation to the literary movements of his time. The several courses taken together afford an opportunity of getting a comprehensive view of the origin and development of the English language and literature.

I. LITERATURE.—Select poems of Tennyson, Wordsworth, Milton, and Shakespeare; Palgrave's "Golden Treasury"; Reading in English Prose.

COMPOSITION.—Written exercises weekly; frequent conferences with the instructor. (3.)

This course is required of all Freshmen.

II. ADVANCED RHETORIC AND COMPOSITION.—Lectures; Text-book; Prose Selections; special attention given to the English essayists. (3.)

This course is required of all Sophomores.

THE BIBLE AS LITERATURE.—In addition to the above course, the Sophomores are required to take a course of one hour in the study of The Bible as Literature. The Revised Version of the Bible and Moulton's "A Short Introduction to the Literature of the Bible" will be used as text-books. (1.)

III. SHAKESPEARE.—A careful and critical interpretation of several representative plays of Shakespeare, with rapid reading and discussion of many others.

This course is open to those who have completed Courses I. and II. (3.)

IV. MILTON.—"Paradise Lost" and selections from his prose works. (First semester.)

AMERICAN LITERATURE.—Lectures, required readings, discussions, and essays. (Second semester.) (3.)

An elective for Juniors and Seniors. It may be omitted at the discretion of the instructor.

V. NINETEENTH CENTURY LITERATURE.—A study of the leading writers and movements of the century. The poetry of Coleridge, Wordsworth, Shelley, Keats, Byron, Tennyson, and Browning is studied and discussed in class. Collateral reading from the leading prose writers will be assigned. (3.)

This course is intended primarily for Seniors, and presupposes the completion of Courses I., II., and III.

VI. HISTORICAL ENGLISH.—The development of the English language and literature in the Anglo-Saxon and the Middle

English periods. The first half of the year is devoted to the study of Anglo-Saxon, the second to the works of Chaucer. (3.)

An elective for Seniors and graduate students.

Graduate Instruction.

Special provision for graduate instruction is made to meet the wants of individual students.

MODERN LANGUAGES.

PROFESSOR BASKETT.

The first and most important aim in the study of modern languages shall be to give the student such practice in reading and such mastery of vocabulary as will enable him to read readily and with real appreciation of their literary merits both the classic masterpieces and the contemporary writings of these languages, thereby fitting him to enjoy the benefit to be derived from their rich treasures of literature, and furnishing him with what is coming more and more to be an absolute essential to the continuation of his studies in any department of the great universities. The second object shall be to drill the student in grammar, syntax, and composition so as to render him familiar with all ordinary forms and to enable him to write with ease and idiomatic accuracy. In the third place, as much time will be given to conversation in these languages as is consistent with the attainment of the above-named higher aims.

Courses in German.

First Year.

Elementary Grammar; Oral and Written Prose Composition; Reader; Easy German Stories. Five hours per week.

When taken as a College course, the first year of German counts for only three hours.

Second Year.

Stories by Heyse and Other Authors; Schiller's "Wilhelm Tell"; Guerber's "Myths of Northern Lands"; Syntax; Prose Composition. Three hours per week.

Third Year.

Lessing's "Nathan der Weise"; another work of Lessing; Goethe's "Faust" (Part I.); Life of Goethe; History of German Literature. Three hours per week.

Courses in French.

First Year.

Grammar; Oral and Written Composition; Reader; Easy French Stories. Four hours per week.

When taken as a College course, the first year of French counts for only three hours.

Second Year.

Review of Grammar; Syntax; Prose Composition; Mérimée, "Colomba"; Bruno, "Le Tour de France"; Dumas, "Le Château d'If"; Sand, "La Petite Fadette"; Outline of the History of French Literature. Three hours per week.

Third Year.

The Dramas of Corneille, Molière, and Racine; special studies in the History of French Literature. Two hours per week.

Graduate Instruction.

Special courses of instruction in this department will be arranged for those who desire to make German or French a part of their graduate work.

BIOLOGY AND GEOLOGY.

PROFESSOR E. E. WILDMAN.

In this school provision is made for undergraduate work in Biology, in Mineralogy, and Geology, and in graduate work, as stated below.

Biology.

I. INVERTEBRATE ZOÖLOGY.—Representatives of various groups of invertebrate animals are studied in the laboratory, field, and aquaria, with reference to their structure, functions, life-history, and classification. Pratt's "Invertebrate Zoölogy" is used as a guide in anatomy.

II. GENERAL ZOÖLOGY.—Fundamental properties of animals. General anatomy and physiology. Relations of animals to their physical and organic environment. Principals of heredity and development. Lectures, laboratory, and museum.

III.—FIELD BOTANY.—Special attention is given to trees. The student learns to name the trees of Howard County by their bark, their leaves, their fruit, and by their habits of branching. But light and soil relations of plants, methods of pollination, protection, and of seed-dispersal are also carefully studied in the laboratory and field. Coulter's "Plant Relations" is the text used.

Courses I., II., and III. are required of all candidates for the B.S. and A.B. degrees.

IV. VERTEBRATE HISTOLOGY.—A study of the minute structure of vertebrate tissues and organs, and practice in the technique of their preparation for the microscope. Lectures and laboratory.

V. HUMAN PHYSIOLOGY.—Martin's "Human Body" is used as the text. This supplements the work of the preceding term.

VI. PLANT HISTOLOGY.—Special types of plants are selected, beginning with the simplest and advancing to the most com-

plex. The leading lines of change of form are traced, and permanent microscopic mounts of all vegetative and reproductive parts are made and studied. The texts of Campbell and Chamberlain are valuable for reference. Lectures and laboratory work.

Courses IV., V., and VI. are required of all candidates for the B.S. degree, and may be elected by all students in the Classical Course who have completed Courses I., II., and III. above.

Additional courses in Biology are offered to undergraduate students who have completed Courses I. to VI., inclusive, as follows (any two to be given each year):

VII. Comparative Vertebrate Osteology and Myology, including the dissection of muscles and preparation and study of the skeletons of six vertebrates.

VIII. Embryology of Vertebrates. *Segmentation,* as seen in the eggs of the frog and fish. Development of organs, as seen in the tadpole and chick.

IX. Cytology.—A study of the plant and animal cell, and its activities.

X. Lantern-Slide-Making and Projections.

Mineralogy and Geology.

I. Mineralogy.—The greater part of the work of this course is laboratory study of ores and rock-forming materials. Dana's Manual is used as a text-book and laboratory guide.

II. and III. Geology.—II., *Historical;* III., *Structural.* These courses are based on Le Conte's "Elements of Geology," illustrated by the valuable and comprehensive collections in the museum, and also by study of the local geological formations.

Prerequisites for Courses I., II., and III. are the first year's work in Biology and in Chemistry.

Courses I., II., and III. are required of all candidates for the degree of B.S., and may be elected by other students who have met the requirements.

Graduate Work.

Work in BIOLOGY will be provided for graduate students who have had Courses I. to VI. and at least two of the elective courses offered.

CHEMISTRY AND PHYSICS.

PROFESSOR SMITH.

In this Department five courses are offered, the first and second of which are required of all candidates for graduation. The time of the class is divided between the lecture-room and the laboratory, as occasion may determine. Carefully kept notes of all experimental work are required of each member of the class.

I. A course in GENERAL CHEMISTRY, Inorganic and Organic. The class meets four times per week throughout the year.

II. A course in GENERAL PHYSICS. It presupposes a knowledge of Elementary Physics and of Mathematics through Analytics. Class meets four times a week during the year.

III. A course in ANALYTIC CHEMISTRY, embracing both qualitative and quantitative work. It is elective for Seniors, and requires five hours per week throughout the year.

IV. A course in METEOROLOGY, covering a general study of the atmosphere, of climate, and of the methods of the United States Weather Service. This course is elective in the second term of the Senior year.

V. Additional courses will be arranged for those desiring to pursue graduate studies. Six hours per week throughout the year are required.

CURRICULA.

It is very desirable that all students shall continue their studies to graduation. Even when this is not possible, all are urged to pursue their studies according to some system, so that they may acquire a symmetrical culture. The following four-years courses of studies necessary to the degrees of Bachelor of Arts and Bachelor of Science show what work the student should be engaged in at any given time.

For a statement of the particular studies in each year, see the departments on preceding pages.

Seniors may elect from Junior electives to fill out a course.

For the A.B. degree one year of Chemistry and one year of German are required.

Elective courses will not be given unless there are at least three members in the class.

REQUIREMENTS FOR DEGREES.

Each member of the Senior Class who is a candidate for a degree must present to the Faculty, not later than May 1, either a thesis prepared under the direction of the professor in whose department it was chosen, or an oration upon some subject of general interest, which he may be required to deliver upon Commencement day.

The degree of *Bachelor of Arts* is conferred upon students who have completed satisfactorily the Classical Course, and have complied with all the requirements of the Faculty.

The degree of *Bachelor of Science* is conferred, under similar conditions, upon those who have completed the Scientific Course.

The degree of *Master of Arts* is conferred upon students who have held the degree of Bachelor of Arts from Central College, or from some other college of equal rank, for one year, and have pursued in residence a course of advanced study, approved by the Faculty, for a period of not less than one year. The studies selected must be chosen from at least three departments of College instruction and must be equivalent to four courses of three hours each per week. With the approval of the professor of the department, undergraduate courses may be selected, provided they shall not be lower than the third or Junior year, and provided, furthermore, that additional work shall be required of the candidate at the discretion of the instructor. Evidence of the candidate's proficiency in the approved studies is given by examinations, which must not fall below a grade of 80, and by the preparation of a thesis under the direction of one of the professors in whose department the candidate is pursuing advanced work.

The degree of *Master of Science* is conferred upon students who hold the degree of Bachelor of Science from this or from another college of equal rank under the same conditions which govern in the case of the degree of Master of Arts.

GOVERNMENT.

The government of the College is conducted by the President and Faculty, under the authority and supervision of the Curators.

It is thought more conducive to good order and more helpful to the student that there should be a few simple rules for the regulation of conduct, rather than an elaborate code of requirements. In the year 1868 these words were entered in the Matriculation Record of the College:

"I enter this institution with a sincere purpose to fulfill the duties of a good student, and to conduct myself at all times according to the rules of propriety accredited in good society."

Every student since that time has signed his name to this declaration. The one demand made is that each student shall conduct himself as a gentleman, and he is thrown upon his own resources to interpret this rule and to observe it.

Students are sent to college to be fitted for honorable and useful stations in life. This object will be steadily kept in view by the Faculty, and their concern will be more for character than for the number of students. For the attainment of this object there must be a wholesome moral and religious sentiment pervading the body of the students; therefore, when any student by continued neglect of duty ceases to receive benefit from his connection with the College, and, by his example and influence, becomes injurious to others, he will not be allowed to remain longer in the institution, but his parent or guardian will be requested to remove him.

FEES AND EXPENSES.

(The collegiate year is divided into two semesters.)

Tuition in College, for each semester.. .. ..$25.00
Incidental fee, for each semester.. .. .. 5.00
Fee for diploma.. .. .. 5.00

Fees for use of apparatus and supplies in Science classes:

Senior Chemistry, for each semester.. .. ..$4.00
Other classes, for each semester.. .. .. 2.00

The incidental fee is required of every pupil, and it must be paid at enrollment.

No student will be allowed to recite until he has settled with the Registrar and secured his entrance card. This rule applies to each semester.

No deduction will be made in College fees except for tuition in case of absence caused by protracted illness.

New students entering after the first month are charged from the date of entrance; others from the opening of the semester, if they advance with their former classes.

Estimate of Cost for Year in College.

	Low.	Liberal.
Tuition and Fees..	$ 60.00	$ 68.00
Boarding..	100.00	145.00
Books, Stationery, etc..	15.00	25.00
Laundry..	10.00	15.00
Total..	$185.00	$253.00

For expenses in Academy, see p. 79.

DORMITORIES AND BOARD.

In order to provide board with every reasonable comfort and convenience, Cupples Hall, a beautiful modern dormitory, has been erected. The rooms are large, well lighted, heated by steam, and properly ventilated. Each room is furnished with everything except bedding and toilet articles. The dining-room will seat one hundred and twenty.

The Hall is in charge of Mrs. William Robertson, an experienced Matron, whose purpose is to make it a home for the students. The assistant teachers in the Academy live in the Hall and have oversight of the students.

Board, room, furniture, light, heat, and service will cost only $3.00 per week. Each room is intended for two students, who furnish bedding and toilet articles and pay for the washing of bed-clothes and towels. Forty-four may lodge at Cupples Hall. In two smaller dormitories, Wills Hall and Stephens Hall, thirty-five students may find rooms, but must furnish their own fuel and light.

At the beginning of every month (28 days), each boarder is required to pay $12, but an equitable difference will be made in the case of those who lodge at Wills and Stephens Halls, or who, rooming in private homes, take meals at Cupples Hall.

On entering, each lodger is required to deposit a damage fee of $2, against which charges will be made for unrepaired damage to rooms or furniture. The balance unused will be returned when the lodger surrenders his room.

No student will be permitted to enjoy the privileges of these Halls unless he obligates himself to observe all needful rules.

Good board may be secured in the town and vicinity at $3.00 to $3.50 a week, all but washing and lights being included.

PART II.

MISCELLANEOUS.

YOUNG MEN'S CHRISTIAN ASSOCIATION.

The Young Men's Christian Association is thoroughly organized. Students of both the Academy and of the College are eligible to membership. Next year the Association expects to have rooms for headquarters in Cupples Hall. Daily morning prayer-meetings are held in the parlors of this Hall and regular weekly devotional meetings each Sunday at Centenary Chapel. Four Bible study courses are offered by the Association. Special effort is made to bring all students under these wholesome influences. The Employment Bureau helps those young men to get work who desire it. All students will be met at the station at the fall term by the Reception Committee. Any desired information will gladly be given upon request by the Corresponding Secretary.

Officers for 1905-1906.

President, A. C. Zumbrunnen.
Vice-President, W. E. Sullens.
Recording Secretary, Milton C. Davis.
Corresponding Secretary, C. W. Blakey.
Treasurer, W. W. Richeson.

LITERARY SOCIETIES.

Connected with the College are two Literary Societies for young men, the Aristotelian and the Phi Alpha. These societies render efficient service in the intellectual and moral culture of their members. So excellent an adjunct are they to the literary

work of the College that the Faculty would urge every pupil entering the College to become a member of one or the other of them.

The Society Halls have been recently refurnished, and are very attractive places for assembly and work.

ENDOWMENT.

The present productive endowment of the College is securely invested and bearing interest, payable semi-annually. It is most desirable to increase this amount at an early day to not less than $500,000, and the Board of Curators is now organizing its efforts to complete this endowment by the year 1907, the semi-centennial of the College. The large facilities of many of the older colleges are due to the thoughful liberality of their friends. Some generous friends of Central College have already signified their purpose of making testamentary bequests to the College. To guide any who may not know the legal style of the College, the following form has been carefully prepared:

Form of Bequest.

And I further will, devise, and bequeath unto the Curators of the Central College, located in the town of Fayette, in the county of Howard, in the State of Missouri, the sum of ——— Dollars, to be used and devoted by the Curators of said College for its sole use and benefit and in such manner as said Curators may in their discretion provide, to have and to hold the said sum for said purpose alone to said College forever.

STUDENTS' LOAN FUND.

Mr. A. F. Davis, a former student and ex-Treasurer of the College, has given $5,000 to endow the "Arthur Davis Loan Fund," in memory of his first-born son, who died in November,

1882. The income of this fund will be loaned to such students as shall be approved by the Faculty, to enable them to complete their education. Preference will be given to those students who have been longest in college, and whose habits of application are best known. The generous founder of the fund writes:

"During my connection with Central College as a student and Curator, I have known young men of a high order of talent compelled to leave college for want of means to sustain themselves, and I recognize the necessity of some provision to assist them in prosecuting their studies."

PRIZES AND CONTESTS FOR UNDERGRADUATES.

I. The *William A. Smith Prize* of twenty dollars, endowed by Bishop E. R. Hendrix, will be awarded for excellence in oratory. The contestants for this prize are selected by the two literary societies of the College from the three highest classes, and the contest is held during Commencement week. The orations are to consist of not more than 1,500 words, and must be submitted to the Faculty at least three weeks before Commencement.

II. The *Dockery Prize* of twenty dollars, endowed by Governor A. M. Dockery, will be awarded at the end of the year for the best general scholarship.

III. The *Declaimer's Prize* of twenty dollars, given by the two Literary Societies of the College, is contested for on the second Monday in April. Each Society may elect three representatives to compete for this prize.

IV. The *Central Collegian Prize* of twenty dollars, also given by the two Literary Societies of the College, will be awarded for the best article published during the year in the *Central Collegian*.

V. The *Adam Hendrix Prize* of twenty dollars, endowed by

Mrs. Adam Hendrix, will be awarded at the end of the year for the best original composition of not more than 1,500 words.

Eligibility to contend for any prize, or to represent the College in any contest, rests upon the following requisites, all of which are in force until the prize is awarded:

1. Contestants must have completed all the studies of the Preparatory Department. This, however, does not apply to the prize for Declamation.

2. The whole number of recitations per week must be at least fourteen, not more than three of which may be graduate studies.

3. Average monthly grades in each study must not fall below 60 per cent.

4. Not more than one examination grade may be less than 60 per cent.

5. Deportment must not fall below 80 per cent.

THE STEPHENS MUSEUM.

In recognition of the valuable and timely aid given by Mr. Lon V. Stephens in developing our Science Departments, the Board of Curators resolved to name the permanent collection of Biological, Mineralogical, and Geological material the Stephens Museum.

The Museum contains a large number of specimens, embracing Zoölogical, Mineral, Rock, Fossil, and other collections. They include a representative collection of Mollusks and other invertebrates and some typical vertebrates from the well-known Ward Science Establishment; choice collections of Minerals from several dealers; a set of excellent German Anatomical Models from the National School Furnishing Company; and many fine specimens in the divisions of Botany, Archæology, etc. Noteworthy among the recent additions are some fine specimens of Tracks

from the Sandstones of the Connecticut River valley, obtained through Bishop Hendrix; a very fine collection of Marine Invertebrates, obtained from the Smithsonian Institution through Senator Cockrell; and a valuable collection of Rocks from the United States Geological Survey, also obtained through Senator Cockrell.

THE KILPATRICK MEMORIAL COLLECTION.

"This collection was acquired partly by gift and partly by purchase from the Academy of Science of Kansas City, Mo., and was for over twelve years the property of the Scarritt Bible and Training School of Kansas City." . . . The authorities of this school "have placed this choice collection in the Stephens Museum of Central College, where it will be known as the Kilpatrick Memorial Collection, in memory of Prof. J. W. Kilpatrick, A.M., who was preparing to install it in its present quarters at the time of his lamented death."

The collection contains more than eighteen hundred labeled specimens, principally minerals and fossils. Many of these are of rare beauty and of great scientific interest.

There are specimens from nearly every State in the Union and from many foreign countries.

Geologically, the range covers the whole sweep of life recorded in the earth's crust, from the Cambrian to the present.

The Stephens Museum, thanks to the intelligent devotion of the late Professor Kilpatrick and many other friends of the College, already contained much valuable material, but it is now greatly increased in value as an aid to the study of Science at Central College.

It is worthy of remark that many of our best specimens have been acquired—one, or a few at a time—through the thoughtful

kindness of our friends who preserved and sent to us the good things that came in their way.

In direct communication with the Museum is the

Laboratory of Biology and Geology.

This Laboratory is ample in size, well lighted from the north and east, and is provided with desk-room and lockers for twenty students working at a time.

It is provided with the apparatus necessary for the thorough study of plant and animal tissues, including a sliding microtome of latest design, a complete outfit for paraffin imbedding, twelve compound microscopes, micrometers, dissecting microscope, turn-table, micro-chemical re-agents, and other apparatus. A new projecting lantern has recently been presented to the College by a former student, Mr. T. D. Scoggin, of Roanoke, Mo., and the increasing collection of lantern slides, together with a number of wall charts made during the year, will be of great value in illustrating the work of this Department.

Laboratories and Apparatus of Chemistry and Physics.

In Science Hall is afforded the room so long needed for laboratory purposes. The work in Chemistry and Physics is done on the ground floor, which is devoted to all the ordinary needs of the Physical Sciences. Besides the Lecture-room, there are the following:

1. The Physical Laboratory with annex for the storage of apparatus.
2. A Chemical Laboratory for experiments in general Chemistry and analytic work.
3. A dark room for Photography, Photometry, etc.
4. An X-ray room.

The laboratories have all been arranged with a view to practical work on the part of the pupils, and are supplied with hoods, gas, water, sewerage, wiring for electricity, etc.

LIBRARY.

PROFESSOR BASKETT, Librarian.

The Library and Reading-room is on the second floor of Science Hall, and is connected by stairway with the gallery on the third floor. The rooms are large, well lighted, and convenient to the class-rooms. Their capacity is 15,000 volumes. About 7,000 books are now on the shelves, and additions are being frequently made by purchase and donation. The recent additions have largely increased the facilities of the English and History classes for research work.

From 8 a. m. to 4 p. m. the rooms are open, and students have access not merely to the reference books, but to the shelves of the general Library. Daily and weekly newspapers and the leading magazines and reviews are kept on the reading-tables. Students may use the rooms for study, but must preserve good order. Students are encouraged and expected to use the Library freely in connection with their class-work.

As the College should have not merely books for daily use, but rare books for occasional or special study, and as many such books are out of print, friends who may possess them are invited to donate them to the College, and to communicate with the Librarian whenever it is possible to secure valuable historical or literary collections.

Books or pamphlets bearing on the history of Missouri, or of Methodism, are specially desired.

ATHLETICS.

As the proper development of a young man's physical being is recognized as a very desirable part of his college training, it is the policy of Central College to encourage clean athletics in all its phases. To become a member of any team in athletics, a stu-

dent under twenty-one years of age must have the written permission of his parents or guardian, and must be doing work satisfactory to the Faculty.

For the direction of the general policy of the athletic interests of the College, there is an Athletic Committee, consisting of seven members, including the three officers of the Athletic Association, two members of the Faculty, chosen by the Faculty, and two Alumni, elected by the Association. This committee supervises all schedules of games and audits the accounts of the managers of the several athletic teams.

The Johnson Field, donated by Mrs. Catherine Johnson, joins the Campus on the north. It is well fitted for all kinds of athletic sports.

The Tennis Club has a large membership. The courts are situated at the east end of Science Hall.

Throughout the school year the Gymnasium is open to all the students, who may there have systematic instruction in physical culture under a capable director.

PART III.

ALUMNI ASSOCIATION.

On the twenty-seventh day of June, 1873, a number of the Alumni of Central College organized the Alumni Society of the College. The Society is now composed of about two hundred members, nearly all of whom are prominent in their spheres of life. Under the by-laws of the Society, antebellum students, titled graduates, and graduates in three or more schools are eligible to membership in the Society. During recent years the Society is becoming more and more a source of strength to the College. At the meeting of 1903 a resolution was adopted, urging local organizations for the purpose of strengthening College ties and assisting in promoting the interests of Alma Mater. They already have a liberal representation upon the Board of Curators. The object of the Society is fully expressed by its preamble, which is as follows:

Preamble.

"We, the Alumni of Central College, for the purpose of perpetuating the memories of our College associations, for advancing the interests of our Alma Mater, and for preserving that mutual fellowship and union which characterized us in our labors in College, do hereby organize ourselves into a Society, the object of which shall be the good of its members and the honor of our College."

Alumni Orator.

The orator for 1905 is Rev. S. M. Godbey, Nashville, Tenn.

Alumni Officers for 1904-5.

President, B. D. Sipple, Fayette, Mo.

First Vice-President, A. W. Walker, Fayette, Mo.

Second Vice-President, H. J. Potter, New York, N. Y.
Secretary, W. D. Baskett, Fayette, Mo.
Treasurer, F. C. Bowles, Fayette, Mo.

The regular meeting for the election of officers and nomination for Curators is held during Commencement week. All members should endeavor to attend.

A committee of the Alumni Association has in charge the preparation of an illustrated History of Central College, to be published in the near future. It is earnestly desired that all Alumni and old students heartily co-operate in this undertaking. Send sketches, pictures, etc., to the Secretary.

SEMI-CENTENNIAL IN 1907.

It is the purpose of the Corporation and Faculty to celebrate, in 1907, the semi-centennial of the founding of Central College. We hope to have then a great reunion of old teachers and students, curators, benefactors, and friends, and to make that occasion the culmination of enterprises to be accomplished during the next two years—viz., the publication of an illustrated History of the College, the erection of a Library building and a new Gymnasium, and the increase of the Endowment Fund to half a million dollars.

For the accomplishment of the above plans the following committee of the Board of Curators has been appointed:

Bishop E. R. Hendrix, Chairman.
Samuel Cupples, W. C. Scarritt,
R. M. Scruggs, Lon V. Stephens,
W. F. McMurry, B. D. Sipple.
S. P. Cresap.

GRADUATES.

The notes herein are as full as can be given with the data at present available. Additional information is desired.

1859.

S. C. MAJOR, B.S.....Died 1894.
Attorney-at-Law; State Senator and Member on Revision Committee State Constitution, 1876.

1861.

E. R. BARTON, A.B.....Denver, Colo.
O. M. HARRISON, B.L.....Glasgow, Mo.
Farmer and Miller.

F. M. HENDRIX, A.B.....Died 1880.
Lieutenant U. S. Navy.
R. F. LUCKETT, A.B.....St. Charles, Mo.
DAVIS RATHBURN, A.B.....

1872.

D. H. EBY, Ph.B.....Hannibal, Mo.
Judge Tenth Judicial District.

J. T. FORSTER, A.B.....Lineville, Ia.
Merchant.

J. R. A. VAUGHAN, A.B. (A.M., '73).....St. Louis, Mo.
Principal Central Academy, 1872-73; Member of Missouri, Denver, and St. Louis Conferences; Curator of Central College; Presiding Elder of Farmington District, St. Louis Conference, 1902-05.

1873.

J. P. GODBEY, Ph.B.....Fayette, Mo.
Member of Missouri Conference.

J. A. POAGE, A.B.....
T. G. MUMPOWER, A.M.....Died 1892.
Member of Missouri Conference; Adjunct Professor of Greek and Latin, Central College; Principal of Central Academy, 1881-91.

1874.

W. O. GRAY, Ph.B.....Bowling Green, Mo.
Principal of Central Academy, 1873-75; Attorney-at-Law; Probate Judge; Editor; Curator of Central College.

S. M. GODBEY, A.M.....Nashville, Tenn.
Member of Pacific and Southwest Missouri Conferences; Professor of Science, Pacific Methodist College, Morrisville College, Springfield High School; Assistant Editor of *Christian Advocate.*

W. C. ARLINE, Ph.B.....St. Louis, Mo.
Principal of Central Academy, 1875-78; Attorney-at-Law.

1876.

C. B. RUSH, A.M.....Prescott, Ariz.
Attorney-at-Law.

R. J. COLEMAN, A.B. (A.M., '84).....Denver, Colo.
Adjunct Professor of Mathematics, Central College, 1878-79; Mine Owner and Broker.

1877.

R. H. HAMILTON, Ph.B.....Kansas City, Mo.
Attorney-at-Law.

Minister; Member Missouri Conference; Graduate Student, Vanderbilt.

CHAPMAN S. LEWIS, A.B.....Evanston, Ill.
Minister; Member Missouri Conference; Graduate Student, Northwestern University.

JOSEPH F. MAYES, Ph.B.....St. Louis, Mo.
Physician; Graduate Medical Department, Washington University, M.D., 1904.

WM. A. McCALL, B.S.....St. Louis, Mo.
Advertising Agent, Laclede Gas Light Company.

ERNEST C. PHILLIPS, A.B. (A.M., '01).....Fayette, Mo.
Teacher, Manila, P. I., and Fayette.

PAUL P. PROSSER, A.B.....St. Louis, Mo.
Attorney-at-Law; Graduate Washington University.

KATHRYN RAY, Ph.B.....
Teacher.

TOM M. RENNOLDS, A.B. (A.M., '02).....Berkeley, Cal.
Farming; Graduate Student, Johns Hopkins.

L. PARKER SICELOFF, A.B.....New York, N. Y.
President Buchanan College, Troy, Mo., till 1904; Graduate Student, Columbia University.

C. P. SMITH, A.B.....Morris, Mont.
Teacher.

W. W. TODD, B.S.....Fayette, Mo.
Farmer.

P. W. USRY, Ph.B.....Kansas City, Mo.
Staff Kansas City *Star*.

1901.

THOS. P. BEDFORD, B.S.....Fayette, Mo.
Graduate Student, Massachusetts Institute of Technology.

WM. R. BURTON, Ph.B.....Gilliam, Mo.
Manager Telephone Co.

LELAND BURKS, Ph.B.....Marshall, Mo.

WALTER S. CALDWELL, Ph.B.....Excelsior Springs, Mo.
Minister.

JULIA C. CONWAY, Ph.B.....Seattle, Wash.

LEUTIE L. COOPER, Ph.B.....Fayette, Mo.

MURRAY H. DAVIS, A.B.....Fayette, Mo.
Banker.

JAMES W. EZELL, Ph.B.....Wannamaker, Mo.

JESSIE L. GRAY, A.B. (A.M., '02).....Fayette, Mo.
Teacher, Spaulding Institute, Muskogee, I. T., and Plattsburg Public Schools.

CHAS. M. HAY, A.B.....Bloomfield, Mo.
Attorney-at-Law; Graduate, Washington University.

STANLEY W. HAYNE, Ph.B.....St. Joseph, Mo.
Minister; Member Missouri Conference.

NELSON HENRY, Ph.B.....Des Loge, Mo.
Teacher.

EDGAR H. SELECMAN, A.B.....Rochester, N. Y.

EDWIN J. SPENCER, Ph.B.....Kansas City, Mo.

HENRY E. STOUT, Ph.B.....Centralia, Mo.
Minister; Member Missouri Conference.

CHAS. W. TADLOCK, Ph.B.....St. Joseph, Mo.
Minister; Member Missouri Conference.

1902.

FRANK C. BOWLES, A.B. (A.M., '03).....Fayette, Mo.
Assistant in Central Academy.

C. H. BRIGGS, Jr., A.B.....St. Louis, Mo.

POWELL M. CAIN, A.B.....Polo, Mo.
Member Missouri Conference.

CHARLES D. CAPELLE, A.B.....Independence, Mo.

THOMAS M. HURT, B.S.....Lawson, Mo.

D. L. MUMPOWER, A.B.....Doniphan, Mo.
Teacher.

L. E. RICHARDSON, A.B.....St. Louis, Mo.
Adjutant-General's Office, Department of Missouri.

ERNEST E. ROUSE, A.B.....Kansas City, Mo.
Banking.

MELBOURNE SMITH, A.B., Staff of the *Republic*.....St. Louis, Mo.

BRITTON P. TAYLOR, A.B.....St. Joseph, Mo.
Minister; Member Missouri Conference.

RUSSELL I. TOLSON, A.B.....Fayette, Mo.
Attorney-at-Law; Graduate, Washington University.

ARTHUR W. VAUGHAN, B.S.....Fayette, Mo.
Assistant in Central Academy.

1903.

CECIL M. AKER, A.B.....Vandalia, Mo.
Principal of Hendrix Academy, Stuttgart, Ark., 1903-04; Member Missouri Conference.

ADAH ROSE AKER, A.B.....Vandalia, Mo.

MARY K. CARROLL, A.B.....New Franklin Mo.
Teacher.

JAMES W. DONALDSON, Ph.B.....St. Louis, Mo.

GRANT B. GRUMBINE, B.S. (M.S., '04).....Richmond, Mo.
Principal of Woodson Institute, 1904.

HORACE M. IVY, Jr., A.B. (A.M., '04).....Columbia, Mo.
Graduate Student, University of Missouri.

CLAUDE OREAR, A.B.....Stuttgart, Ark.
Principal of Hendrix Academy.

WORTH J. OSBURN, A.B.....Nashville, Tenn.
Graduate Student, Vanderbilt University.

SALLIE D. SICELOFF, A.B.....Kansas City, Mo.
Student, Scarritt Training School.

BERYL DEAN SMITH, A.B. (A.M., '04).....Fayette, Mo.

R. RALPH STANDLEY, B.S.....Stet, Mo.

MABEL F. SYMONS, A.B.....Lake City, Ark.
Teacher.

CHENAULT TODD, Jr., A.B.....Fayette, Mo.

1904.

HUGH D. DAVIS, A.B.....St. Louis, Mo.

JAMES L. DAVIS, A.B.....Ann Arbor, Mich.
Student, Law University of Michigan.

GEORGE GARTON, A.B.....Farmington, Mo.

WILSON N. GIDDENS, A.B.....Gower, Mo.
Member of Missouri Conference.

JNO. C. GODBEY, A.B.....Fayette, Mo.

NANNIE (GODBEY) SHIRK, A.B.....Fayette, Mo.

GARLAND GREEVER, A.B.....Trinity, N. C.
Graduate Student, Trinity College.

ADDISON T. KING, A.B.....Nevada, Mo.
Teaching.

COVERDALE S. RENNISON, A.B.....Agency, Mo.
Member of Missouri Conference.

ETHEL K. RUSH, B.S.....Fayette, Mo.

JAMES B. SWINNEY, B.S.....Gilliam, Mo.

HONORARY DEGREES.

1881—D.D., President I. S. Hopkins, Athens, Georgia.
1882—D.D., Bishop W. W. Duncan, South Carolina.
1884—LL.D., Bishop A. W. Wilson, Baltimore, Maryland.
1884—LL.D., Hon. John F. Phillips, Judge Federal Court, Kansas City, Missouri.
1885—LL.D., Professor C. W. Pritchett, Glasgow, Missouri.
1887—D.D., John D. Hammond, Nashville, Tennessee.
1888—D.D., J. C. Morris, President Central College, Fayette.
1888—D.D., A. E. Stafford, Toronto, Canada.
1889—D.D., S. H. Werlein, Fort Worth, Texas.
1890—D.D., David J. Waller, London, England.
1894—D.D., C. H. Briggs, Marshall, Missouri.
1894—D.D., E. B. Chappell, Nashville, Tennessee.
1894—D.D., J. W. Roberts, North Georgia Conference.
1895—D.D., Professor O. E. Brown, Vanderbilt University.
1895—D.D., Rev. James A. Duncan, Knoxville, Tennessee.
1895—LL.D., Hon. William L. Wilson, President Washington and Lee University, Virginia.
1897—LL.D., Professor O. H. P. Corprew, Central College, Fayette.
1899—D.D., Rev. C. M. Bishop, St. Joseph, Missouri.
1899—D.D., Rev. W. F. Packard, Texas Conference.
1899—D.D., Rev. J. H. Young, St. Louis Conference.
1900—LL.D., Judge John A. Hockaday, Fulton, Missouri.
1900—LL.D., President R. S. Hyer, Georgetown, Texas.
1900—D.D., Rev. W. B. Palmore, Editor St. Louis *Christian Advocate.*
1901—D.D., Rev. C. E. Patillo, Jefferson City, Missouri.
1901—D.D., Rev. Z. M. Williams, Kansas City, Missouri.
1901—D.D., Rev. John Anderson, Gallatin, Missouri.
1901—D.D., Rev. Fielding Marvin, Palmyra, Missouri.
1903—D.D., Rev. H. D. Groves, President Howard-Payne College, Fayette, Missouri.
1903—D.D., Rev. S. H. Wainwright, President Kwansei Gakuin, Kobé, Japan.

ACADEMY OF CENTRAL COLLEGE.

PURPOSE.

The Academy is a training school under the control of the Board of Curators of the Central College. Its purpose is to prepare students for admission to the Freshman Class in Central College, or any other college to which they may go. For those who cannot attend college, thorough preparation for some college is the best preparation for active business life.

LOCATION.

The Academy is situated on the Central College Campus, and has as its home the building in which all the work of the College was formerly done, known then as Library Hall. The advantages of this location are very evident. The students are in constant touch and association with the regular student body of the College, use the same boarding-places, belong to the same Literary Societies, the same Athletic Associations, and the same Young Men's Christian Association. They have access to the College Library, and the work in Science is done in the College Laboratories, under the direction of the Academy instructor. The various religious and educational gatherings common to college communities give students advantages which are very rare and profitable.

COURSES OF INSTRUCTIONS.

These are arranged by departments, and also combined into programmes. The first detail the quantity, quality, and method of work in any given subject of instruction, and the latter present different groups of studies arranged in succeeding years for

special classes of students who have special ends in view. In rare cases, special programmes will be arranged to meet individual needs.

COURSES BY DEPARTMENTS.

Latin.

LATIN I.—First Year Latin (Collar & Daniell); "Via Latina" (Collar); Forms, Constructions, and easy reading.

LATIN II.—Cæsar, four books, any good text; Cicero's Orations, four Against Catiline, any good text; Latin Grammar (Allen & Greenough); Latin Prose Composition (Moulton & Collar); Forms, Constructions, and Sight Reading; Parallel Readings.

LATIN III.—Vergil's "Æneid," four books, any good text; Ovid's "Metamorphoses," any good text; Latin Grammar; Latin Prose Composition (Moulton & Collar); Constructions, Prosody, and Sight Reading; Parallel Readings.

Greek.

GREEK I.—First Greek Book (White); Xenophon's "Anabasis," Books I. and II., any good text; Forms, Constructions, and easy reading.

Mathematics.

MATHEMATICS I.—Arithmetic, completed (Wells); Algebra, First Steps (Wentworth).

MATHEMATICS II.—Algebra (Wells' "Essentials"); Concrete Geometry (Baker).

MATHEMATICS III.—Algebra, through Quadratics (Bowser's College); Plane Geometry (Wentworth).

History.

HISTORY I.—English History (Montgomery); Civics (Clarke); Parallel Readings.

HISTORY II.—Ancient History (Wolfson); Guerber's "Myths of Greece and Rome"; Parallel Readings.

English.

ENGLISH I.—English Grammar (Allen & Hawkins); Classics: for study, Hawthorne's "Mosses from an Old Manse," Scott's "Lay of the Last Minstrel"; for reading, Cooper's "Last of the Mohicans," Hughes' "Tom Brown at Rugby."

ENGLISH II.—Beginnings of Rhetoric and Composition (A. S. Hill); English Grammar, review (Whitney & Lockwood); Classics: for study, Scott's "Lady of the Lake," Macaulay's Essay on Addison, Coleridge's "Ancient Mariner"; for reading, Scott's "Ivanhoe," "Addison's "De Coverley Papers," Shakespeare's "Merchant of Venice."

ENGLISH III.—Rhetoric (Herrick & Damon); Grammatical Analysis; Classics: for study, Shakespeare's "Macbeth," Burke's Speech on Conciliation, Milton's Minor Poems; for reading, Tennyson's "Idylls of the King," Eliot's "Silas Marner," Shakespeare's "Julius Cæsar," Macaulay's Essay on Milton.

Composition and Essay work will extend throughout all courses.

Science.

SCIENCE I.—Physical Geography, Advanced (Dryer); Physiology (Blaisdell).

SCIENCE II.—Elementary Zoölogy (Needham); Elementary Botany (Bergen); Laboratory work throughout the year.

SCIENCE III.—Elementary Physics; Laboratory work throughout the year.

Modern Languages.

GERMAN I.—German Grammar (Spanhoafd); German Reader (Whitney's Introductory); Prose Composition and Parallel Readings.

FRENCH I.—French Grammar (Frazier & Squair); Reader (Super); Prose Composition and Parallel Readings.

Bible.

BIBLE I.—Patriarchal and Hebrew History, Outlines (G. M. Steele).

BIBLE II.—Poetical and Prophetical Books, Outlines (G. M. Steele).

BIBLE III.—Life of Our Lord, Outlines (G. M. Steele).

THE COURSES AND THE PROGRAMMES.

These are designed primarily to meet the requirements for admission to the Freshman Class of Central College. The Latin-Greek Programme prepares for the A.B. course; the Latin-German and the Science-Modern Language Programmes prepare for the B.S. course in the College. At the same time these Programmes in general meet College entrance requirements.

ADMISSION.

The applicant should be at least fourteen years of age, and he must be ready for the work offered in our first year. No work below that outlined for this class is provided for. Generally students who have not fully completed the work of the eighth grade in some good public school, or had equivalent training, are not ready to undertake this work.

It is very important for students to be present on the day of opening, but they will be admitted at any time, and in most cases will find classes suited to their wants.

Students coming to us from other schools and claiming credit for work done therein must present a certificate from the authorities of that school showing satisfactory records for class-work and good behavior.

CLASSIFICATION.

On entering, students are placed by the Principal, in conference with the other teachers, in those classes for which they are prepared. Generally this is done without examination, but in some cases examinations are necessary. Frequently students are ready for some of the College classes, but not ready in others. These are allowed to take such College classes as they are prepared for, taking at the same time the work necessary in the Academy, and they will be ranked in College or Academy as the majority of hours indicates. All students must have at least fourteen hours of work, exclusive of Bible.

MATURE STUDENTS.

It is apparent from a close examination of the courses of study that our work is especially adapted to the needs of the students of mature years who are preparing for college and wish to do the greatest possible amount of work in a given time. Our course does the work of four years in three. Immature students may

require more time than three years for its completion. The past year the student body averaged about twenty years of age, and a number of our very best students were considerably older than this. So it is in place to say to those young men who feel that they have waited too long to begin, and who fear that because of their age they will not be pleasantly surrounded, that they need have no fears in so far as the question of age is concerned. We especially solicit students of this class, if they are really anxious for an education.

DISCIPLINE.

Fair, honest, firm government of a school is a necessity. All students are treated and trusted as gentlemen, and they must respond to this treatment.

Students of the Academy are under a different system of management from that of the College students, and the wisdom of this course is apparent. Younger students cannot be given the degree of freedom which can safely be granted to older and more mature young men. Oftentimes Academy students are mature young men, but if they are such, they are able to recognize the wisdom of a strong, firm oversight for those who are not able to use a larger freedom.

A few special regulations are indispensable, such as:

Students must observe study hours; must not keep or carry dangerous weapons; must not drink or keep intoxicating liquors; must not enter any places where such liquors are sold; must not use profane or obscene language; must not abuse school property; must not do anything unbecoming gentlemen.

A system of demerits is used, but offenses are otherwise punished as each special case may demand.

The school is for students, those who are anxious to study and improve, and anyone who so deports himself as to become undesirable will be discontinued.

LIBRARY AND READING-TABLE.

Academy students have full access to the regular College Library, and, in addition, to a fairly good working Library, particularly of reference books, in the Academy building. A reading-table will be supplied with magazines, newspapers, and other periodicals of a kind adapted to the students.

GRADUATION.

Upon satisfactory completion of any of the general courses of study as outlined in the various programmes, students are given a Certificate of Graduation, attesting that fact.

FEES.

Tuition Fees, for each semester	$20.00
Incidental Fee, for each semester	5.00
Laboratory Fees, for each semester	1.00

For other details, see pages 39 and 40 of the College Catalogue.

PRIZES.

(For conditions, see those attaching to College Prizes.)

The T. G. Mumpower Scholarship Prize, value $20.00, endowed by his sons and daughters as a memorial of their father, is awarded for the best general scholarship in the Academy. Students having part of their work in the College will not be eligible to this prize.

The Declamation Prize, offered the past year by the St. Louis Methodist Preachers' Meeting, is awarded for the best declamation delivered in the annual contest during Commencement week.

HONORS.

The teachers keep correct class records of all work and prepare quarterly and annual Honor Rolls, which are published and posted in a suitable bulletin, also publicly read during Commence-

ment. An average of 95 shall entitle the student to highest honors; of 90, to honors; of 80, to distinction; of 60, to a pass; of 50, to a condition. Below 50 is considered a failure. Only the names of those who average 80 or more in any given subject will appear on the Honor Roll. Students who receive no demerits during the year are also posted as Honor Men, and this list is recognized as the most honorable of all.

REPORTS.

Candid reports are sent to parents at the close of each month, also at the close of each term, and the reports thus sent may be strictly relied upon. When students do their duty, parents should help them and us by encouraging them; and when they fail to do their full duty, we urge parents to help us by arousing the students to better efforts in every possible way.

TO PARENTS.

We urge that you allow your son to remain to the very last day of the session, as too frequently a year of good work is spoiled by withdrawing the student a few weeks or even days before the session is ended. After we have done our best for him for the greater part of the year, it is very discouraging to us, and generally to him, for that work to be broken up by a too early withdrawal. Write freely to us about your boy.

We send you frequent reports of him and his work, and we shall give you frank notice of anything which we feel that you ought to know. While your boy is under our care, we are anxious about him, that he may develop properly and not disappoint you here, and we look to you for such assistance and co-operation as only the parent can give.

II.

Central Academy,

(WOODSON INSTITUTE)

Richmond, Mo.

GRANT B. GRUMBINE, M. S., Principal.

GENERAL STATEMENTS.

LOCATION.

Richmond is a flourishing city of nearly 4,000 inhabitants, situated on the St. Joseph branch of the Santa Fé Railway and about forty miles east of Kansas City.

WOODSON INSTITUTE

Is located in the eastern part of the city, on a commanding site. The building is a monument to the genius and liberality of those who have erected it. It is lighted throughout with incandescent electric light and heated by steam.

HISTORICAL STATEMENT.

Woodson Institute, Richmond, Mo., is named in honor of the late T. D. Woodson, Esq., who contributed generously to its foundation. Recently, in obedience to the action of the Missouri Conference, and by an agreement with the trustees of Woodson Institute, the property passed to the control of Central College trustees. It is now correlated with that institution, and its graduates may in the future, without examination, enter the Sophomore Class.

COURSE OF STUDY.

Should the graduates of Woodson Institute desire to receive a full college course, they may, without interruption, continue their work at Central.

ELECTIVES.

Since many of the pupils of the Academy will wish to prepare for teaching in the Public Schools, arrangements will be made for giving instruction in such additional subjects as may be necessary.

EXPENSES.

All bills must be paid in advance, and no pupil will be allowed to matriculate until his bill is paid or a satisfactory arrangement is made with the Principal.

No pupil will be received for less time than one term unless by special agreement. In case of absence for as much as four weeks on account of sickness or from any other necessary cause, a proportional part of the tuition will be refunded; provided, however, no deduction will be made for the first two or the last four weeks of any term, nor in case of dismissal.

HOME DEPARTMENT.

The Home Department will be under the immediate care of the Principal, assisted by a carefully selected Matron. Every effort will be put forth to make this a home indeed as to comfort and convenience.

THIRTEENTH SESS ON.

Fall term opens September 5, 1905.
Winter terms opens January 3, 1906.
Spring term opens March 18, 1906.

Enrollment, 1904-1905.

Total.....160.

III.

Central Academy,

(CENTENARY ACADEMY)

Palmyra, Mo.

REV. JAMES A. LANIUS, Principal.

GENERAL STATEMENTS.

LOCATION.

Palmyra is a charming city of 2,300 inhabitants, the county seat of Marion County, Mo. The Hannibal & St. Joseph Railroad brings it into close connection with the great Burlington system, of which it is a part. Its proximity to Hannibal and Quincy, and its railroad connections with them, make it easily accessible to all railroad and river points in eastern Missouri and western Illinois.

The buildings are of brick and consist of a large school building, with capacity of 300 pupils, and a well-built "Academy Home" for young ladies. This last is lighted by electricity and heated by steam, and has all the equipments of the best boarding-schools for young ladies.

SPECIAL RATE FOR BOARDING PUPILS.

A flat rate of $170 to cover cost of board, tuition, music (one kind), and use of piano for daily practice, or $140 without music, will be made to pupils who enter for the entire year; but if from any cause such pupils should leave before the end of the year, they will be charged catalogue rates for the time they may have attended. These rates are very low, and are not duplicated by any young ladies' boarding-school in the State. The numbers are limited to twenty, and the low rates are made with the confident expectation that every place will be taken at an early day. Bills must be paid in advance, or when called for.
